**SUBJECT: HAZARDOUS SUBSTANCES**

Hidroten informs to whom it may concern, that our PVC fittings and valves are made of PVC compounds free of substances indicated in the policy of restricted on the DIRECTIVE 2011/65/EU OF THE EUROPEAN PARLIAMENT AND OF THE COUNCIL of June 8, 2011: heavy metals – lead, mercury, cadmium, hexavalent chromium (total content less than 100 ppm) – polybrominated biphenyl (PBB) and polybrominated diphenyl ether (PBDE).

All raw materials included in the compounds that we use are registered in REACH 1907/2006. It does not include the substances of the Candidate List of very high concern (SVHC) until January 2017.
